

My Monthly Budget

Prepare a personal budget for November.
Consider the following.

Current Savings: \$47.90

Pocket money is paid each Saturday. Your allowance per week is \$4.30. How much pocket money will you earn in November?

On the 13th of November, it is your brother's birthday. You will need to buy him a gift. Decide how much you would like to spend.

You go out with some friends. Mum gives you an additional \$10 but you spend more. Describe what you bought and how much of your savings you used:

You stop in at the Deli after school on Monday the 7th. You buy a slushie out of your own money. It costs \$2.50. Will you buy one for your friend as well?

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
November 2016						
		1	2	3	4	5
6	7	8	9	10	11	12
13	14	15	16	17	18	19
20	21	22	23	24	25	26
27	28	29	30	Notes:		

Gran visits you with a late birthday gift. She buys you the latest sports shoes. You are so impressed that you decide to buy her a very special thank you card. How much will you spend?

What other decisions might you make this month that will need to be considered in your budget. Be creative and record these here:

Record these transactions into this table.

Date	Item Description	Income	Expense	Balance	Need or Want?

Reflect on your budget plan. Is there something you would change in next month's budget.

Explain why. _____
